MUHAMMAD ANIQUE QADIR

KEY ACHIEVEMENTS

Full-Stack Portfolio Platform
Designed and built a full-stack developer portfolio platform end-to-end — a React frontend backed by a production-ready Node.js/Express/MongoDB REST API with JWT auth, image uploads, and an admin dashboard.

Custom Theme & Store Development
Specialize in custom WordPress theme development and Shopify store customization using Liquid templating — turning client vision into fully functional, conversion-focused online experiences.

Responsive & Cross-Browser Excellence
Ensure seamless performance across all devices and browsers, writing clean, efficient front-end code that delivers consistent, polished user experiences every time.

FRONTEND SKILLS

Languages & Libraries
HTML5 · CSS3 · JavaScript (ES6+) · React

Styling & UI
Bootstrap · Responsive Design · Figma-to-Code

CMS & E-commerce
WordPress (Custom Themes) · Shopify (Liquid)

BACKEND SKILLS

Node.js · Express.js · REST APIs
MongoDB · Mongoose · JWT Auth
Cloudinary · Docker · Git/GitHub

DESIGN & TOOLS

Canva · Photoshop · Problem Solving

SUMMARY

Creative, detail-oriented Frontend and Full-Stack Developer with a strong eye for modern, user-friendly design and a growing depth in backend engineering. Experienced building responsive, high-performing interfaces with HTML, CSS, JavaScript, and React, and equally comfortable building the REST APIs behind them with Node.js, Express, and MongoDB. Deep expertise in custom WordPress theme development and Shopify store customization using Liquid templating. Known for writing clean, efficient, pixel-perfect front-end code and for shipping complete, production-ready systems — from database schema to deployed UI — with professionalism and reliability. Experienced in working with international clients.

PROJECTS

Developer Portfolio Platform Personal Project
Full-Stack Web Application — React, Node.js, Express, MongoDB

- Built a complete developer portfolio platform: a React frontend paired with a production-ready Node.js/Express REST API and MongoDB database, using a feature-based, layered architecture.
- Implemented secure JWT authentication with rotating refresh tokens, role-based access control, and Cloudinary-powered image uploads across Projects, Blogs, and Testimonials modules.
- Added a Contact form with automated email notifications, a Visitor Analytics module, and an admin Dashboard; containerized with Docker for deployment on Railway/Render.

EXPERIENCE

WordPress Developer 2024 – Present
Eprint (Inogix)

- Designed responsive websites and engaging visuals for web and social media platforms.
- Maintained website content and assisted in digital marketing campaign execution.
- Collaborated with marketing and development teams to optimize website performance.

WordPress Developer 2025 – 2026
Beyond Eris Solutions

- Developed and customized WordPress websites with custom theme development and pixel-perfect front-end implementation using HTML, CSS, and JavaScript.
- Configured and maintained plugins, ensuring cross-browser compatibility and optimized performance, while translating client design concepts into fully functional sites.

WordPress & Shopify Developer 2025 – 2026
Marksol Creative Agency

- Build and customize WordPress and Shopify stores, modifying themes using Liquid templating, HTML, and CSS to match brand identity.
- Configure apps and plugins, optimize store layouts for conversions, and deliver polished e-commerce solutions that meet client requirements.
